PROTECTING, MANAGING AND MONITORING EUROPE'S PROPERTY AND SITES

VPS are the vacant property, site security and property services specialists. We lead the European vacant property services market, providing a full suite of specialist solutions across the complete property lifecycle, as well as offering a wide range of services covering remote sites and occupied property.

Key customers include social housing, insurance companies and a wide range of commercial customers, such as financial services, property managers, retailers, industrial, construction and infrastructure companies. We have a national network of over 25 service centres including Evander in the UK and operations across mainland Europe including France, The Netherlands, Germany, Spain and Italy.

OUR SOLUTIONS INCLUDE:

Property Security

Our comprehensive range of vacant property solutions offer simple and effective deterrents from unauthorised visitors and help you to maintain the value of your property.

Guardian Services

A cost effective way to secure your vacant property from unauthorised entry, vandalism and squatters, by providing protection by occupation.

Site Security

Specialising in bespoke and innovative solutions for protecting large and remote sites, such as construction sites, events, utilities projects and highways.

Grounds Services

Covering every aspect of grounds maintenance, landscaping and design to help ensure that your asset is looking its best as well as safe all year round.

Glazing, Doors and Locks

Specialists in glazing, locks, doors and windows, carrying out planned works and emergency locksmith, and boarding-up services, 24 hours a day.

VPS Insights customer portal gives our customers unparalleled transparency when it comes to the portfolio. Customers can access all current and historical data for every property protected for them by VPS.

With VPS Insights, everything you need to know from inspections to actions required, maintenance to meter readings, from risks to readiness for re-letting is now in one place and at your fingertips.

See our comprehensive solution guides to find out more about each of our service offerings and how VPS can help you effectively secure, maintain and manage your property.
