

VPS GUARDING SERVICES

VPS are trusted experts in deploying a range of manned guarding solutions across the UK. Due to our extensive service centre network and in house RVRC monitoring station, guarding requests can be received, actioned and deployed 24/7, meaning that security risks at site can be mitigated within a timely manner, regardless of when they occur.

Over the last 3 years VPS has developed expertise within the reactive manned guarding sector. When the need is at its greatest we have been able to source and deploy presence to site within hours. This has resulted in VPS being selected as preferred reactive supplier to a number of major FM and property management companies nationwide.

AREAS COVERED:

- Relief Guarding
- Holiday Cover
- Urgent cover due to sickness
- Immediate reactive guarding
- Conflict resolution

Our service can be utilised for the prevention of risk regardless of property size or location. We provide guards for all purposes, ranging from office buildings and operating businesses to vacant units and Infrastructure projects.

VPS deliver quality SIA Licensed guarding on a national scale. Delivering 496,550 hours of guarding services to our customers in FY17/18 VPS have proven flexibility and resource resilience across the UK.

Our customers acknowledge our security guards for their high standards of professionalism. The VPS guarding division is dedicated to providing total ownership of service, offering around the clock customer support with a dedicated contact, delivering proactive communication and reactive response to suit our customers requirements.

STATIC GUARDING

VPS provide an adaptive and bespoke guarding service across the UK. When the need is urgent, manned guarding is often the quickest and most effective way to protect a void property and mitigate the associated risks.

We offer a 3 tiered service, ranging from a basic SIA licenced guard, to an intermediate guard who will also be trained in customer liason, all the way up to an advanced security guard who can also be First Aid and Fire Marshall trained.

We have vast experience in providing a range of fully trained officers for a variety of property types, including:

- Vacant properties
- Vacant office buildings
- Logistical distribution and manufacturing centres
- Construction and infrastructure
- Educational properties
- Social and residential premises
- Utilities Companies
- Retail
- Commercial Properties

In addition we can provide comprehensive assignment instructions, helping to ensure we meet our clients expectations.

DOG HANDLERS

VPS provide a dog handler service which has proven to be an effective solution in the prevention of unauthorised site or property access. VPS utilise professional security dog handlers who act as an excellent visual security deterrent, and work with experienced guard dogs who are trained to use their heightened sense of hearing and sight to detect and prevent any wrongdoing. With three levels available for varying levels of risk you can be sure VPS will have an option to suit your needs.

DOOR SUPERVISORS

Our door supervisor service can be tailored to suit your individual needs. With experience and training in conflict management our door supervisor service is ideal for sensitive situations, where a manned presence is necessary.

We understand and value our customers requirements and expectations, enabling us to provide an adaptable service tailoring each instruction to our client's specifications.

We guarantee a strong presence that is both customer friendly and professional, enabling our customers the ability to concentrate on their business needs without the worry of their property being vulnerable.

CONCIERGE SECURITY SERVICES

Our concierge provision covers a wide range of services, including:

- Meeting and greeting customers and guests
- Day to day reception duties
- Access co-ordination
- Directing traffic and emergency services
- CCTV management/monitoring

We understand and focus on our customer's integrity and specific requirements. We provide a friendly and polite concierge service enabling our customer's guests and visitors to feel welcome. We look to provide guards who have strong interpersonal skills and a passion for customer care.

KEY HOLDING

VPS provide a full key holding service, from installing the alarm, monitoring it via our RVRC to key holding with rapid response. Clients choosing this service take comfort in knowing their vacant property is regularly monitored, with full reporting available via our customer portal.

Service includes:

- Alarm response
- Mobile patrols
- Lock and unlocks
- Site inspections
- Alarm and CCTV installation
- Alarm and CCTV monitoring
